The aim was to not only showcase and celebrate the best work, but also to share the clever innovations and industry-leading projects with the rest of the industry and the country.

The awards will now be an annual event.

Close working relationship with WorkSafe NZ

NZDAA works closely with government agencies like WorkSafe NZ.

"We have direct lines of communication now with WorkSafe and have their confidence and support," Rikki says.

WorkSafe staff attend NZDAA's two general meetings and the annual meeting each year to provide answers and information to NZDAA members on the new rules and regulations, including a new Asbestos Code of Practice (ACOP).
